CHANGING POLITICS FOR GOOD

## WE MUST LEAVE THE EU

These European elections were not supposed to happen.

In June 2016, 17.4m voted to leave the EU – the biggest democratic mandate in British history. After 25 years of campaigning for Brexit, I believed we had won. Yet almost three years later, the government and MPs have betrayed Brexit.

However you voted in 2016, we all care about democracy and dislike seeing our great nation humiliated. This battle is no longer just about the EU. We must fight back against our failing MPs who have defied 17.4m of us. Their two-party system cannot cope with Brexit. Politics is broken. Enough is enough.

We need to change politics for good. Let's put the principles of Trust, Honesty and Integrity at the heart of our democracy. This is about more than Brexit, it's about what kind of country we are.

May 23rd can be the start of a new future for British democracy.

Vote for The Brexit Party.
